prevention, clinical method, and research, while considering biotechnology utility, but only as a tool, not a sense;

- d. to cooperate with WHO and countries' health ministries to orient public health to Person-Centered Medicine, to warrant possibilities for free health care for all, and to assume as public health paradigm the health definition: "The choice for best possibilities for being the best human person."

### 3 WHC-WCHMPC STRUCTURE AND ADHESION

- a. WHC-WCHMPC is composed of individuals who adhere to CMS-WHC (Charte Mondiale de la Santé) and the WHC-WCHMPC constitutive act, and by health organizations that adhere to CMS-WHC ;

The WHC- WCHMPC members of the same country gather in Health National Committees <sup>13</sup>(HNC) to constitute a lobby pressure on countries governments for orienting health systems to Person-Centered Medicine, and the health definition: "The choice of the best possibilities for being the best human person," activating medical education updates, contrasting laws against rights to health and life. The Individual adhesion is formalized by *an adhesion letter to CMS-WHC and the WHC-WCHMPC constitutional bill sent to [adhesion@healthparadigmchange.it](mailto:adhesion@healthparadigmchange.it)* <sup>14</sup> The WHC-WCHMPC board members become members of the National Committees Scientific Boards to assure coordination between- WHC – WCHMPC governance and national Committees.

- b. Health National Committees (HNC)®, whose institution is registered by the WHC-WCHMPC board, comprises three persons and the WHC- WHCHMPC scientific board. The HNC directional structure is articulated in the following roles: President, Secretary, communication manager. Each continent gathers registered HNC. The HNC of the continent with the highest number of members represents it on the board.
